FAA-99-5483-55

To whom it may concern. I am writing in reference to the Notice of Proposed Rulemaking. Docket No. FAA-1999-5483 Notice No.99-03. As a Skydiver and member of the military I have witnessed the results of people in a position of authority, mica-managing in areas they have no expertise. The USPA has done an outstanding job self-regulating and should be allowed to continue.(If it's not broke, don't fix it) I urge you to leave skydiving safety matters in the hands of skydivers. The FAA could help by working with the USPA by pursuing and shutting down outlaw jumpers and DZs who follow no rules. Thanks for listening.
